

CUSTOMER JOURNEY MAP

Date	26 June 2026
Team ID	
Project Name	Rsing Waters
Maximum Marks	2 Marks

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• User registers/logs in • Selects location • Views dashboard	• System analyzes weather & rainfall • Predicts flood risk • Sends alert & recommendations	• User follows safety instructions • Shares alerts with family • Tracks live updates
Touchpoint <i>What part of the service do they interact with?</i>	• Website/Mobile App • Login Page • Dashboard	• ML Prediction Engine • Weather API • SMS/Email/App Notifications	• Alert Dashboard • Emergency Contacts • Safety Resources
Customer Thought <i>What is the customer thinking?</i>	• Is my area safe? • How does this system work? • Can I trust the prediction?	• What is my flood risk? • What should I do now? • Is evacuation needed?	• Am I safe now? • Has the flood situation improved? • How can I help others?

Customer Feeling <i>What is the customer feeling?</i>	• Curious • Hopeful • Interested	• Concerned • Alert • Anxious (if high risk)	• Prepared • Relieved (when safe) • Responsible
Process Ownership <i>Who is in the lead on this?</i>	• End User (Citizen) • Web/App Platform	• ML Model • Weather API Provider • System Backend	• End User • Disaster Management Authorities • Emergency Services
Opportunities <i>How can we improve this stage?</i>	• Simple registration • Easy location detection • User guide/tutorial	• Improve prediction accuracy • Faster real-time alerts • Personalized recommendations	• Offline alert support • Live rescue information • Integration with emergency helplines
